Entertains For Foreign Lawyers

Prof. and Mrs. Cecil J. Olmstead of Norwalk, Conn., near New York, entertained Wednesday night at the Shore Country Club for a group of foreign delegates to the 48th Conference of International Jurists, September 24, which was held at the New York University Law Center.

Four hundred members of the association, representing twenty six countries were in New York the first week in September for the seven-day conference. Prof. Olmstead is honorary secretary and treasurer of the American branch of the international association and member of the International Executive Council. He is a professor of law at New York University.

Among Prof. and Mrs. Olmstead's foreign guests were: Rt. Hon. Sir Patrick Spens, member of Parliament, formerly chief justice of India, and Mrs. Spens; Prof. Roberto Sandiford, vice president of the Italian Council of State and professor of law at the University of Rome, Italy, and Mrs. Sandiford; Judge Sverre Dalsbø of Norway; Dr. and Mrs. H. Meurs of the Netherlands; Gunther Janke of Germany; J. B. S. Edwards of the English bar; Prof. Angelo Sereni of Bologna, Italy, and Mrs. Sereni.

Prof. Olmstead, son of Mrs. C. J. Olmstead, Sr., of Jacksonville, attended Georgia Teachers College before graduating at the University of Georgia and at Yale.

Mrs. Olmstead, the former Frances Hughes, daughter of Mr. and Mrs. F. W. Hughes of Brooklet, was an honor graduate at Georgia Teachers College.

Don't be a statistic!

According to highway safety authorities, most serious automobile accidents happen at night. Poor visibility is an important cause.

Now that the days are getting shorter, make sure that your car's lights are functioning properly. Your Phillips 66 Dealer will be glad to help you keep your lighting equipment in top condition. Also, he has the fuses and sealed-beam units to fit your car.

If you possibly can, try to arrange your trips so that night-driving is kept to a minimum. And the first time your eyelids get heavy, pull over and get some rest. The life you save may be your own!

"For my money, this new-type, sound-conditioned concrete gives the sweetest ride yet!"

Concrete increases in strength year by year. Concrete actually improves with age—gets up to 30% stronger in five years. Here's a durability "bonus" only concrete gives. Crushing resistance tests in the laboratory prove it. It's another reason why concrete lasts longer, costs less to maintain.

Concrete is a smooth, strong, durable material. It's smooth — not a bump to be heard. They're using it now on highways designed for the needs of 1975 traffic.

You'll be glad highway engineers who helped develop new-type concrete plan thousands more miles of it. What comfort! It's laid without joints, has only tiny cushion spaces you can't feel or hear!

A new process, "air entrainment," prevents weather or de-icer roughening. Laid flat on a specially designed subbase, concrete stays flat. It has an expected life of 50 years and more... with up to 60% lower upkeep cost than for asphalt. Yet first cost is moderate. That's why concrete is first choice for the Interstate System and other new primary roads.
